FDD Abstract [REDACTED]

MATERIAL REQUIREMENTS OF THE LEW PLANT (4 pp; German; [REDACTED])

25X1A

[REDACTED] 25X1X

This document consists of a microfilm strip of four typewritten tables. Two of them represent a list of specific material requirements for 1951 to be covered from the production of the Heavy Machine-Building Ministry, while the other two represent a list of specific material requirements for 1951 to be covered from imports. All the requirements are listed by the VEM LEW (Locomotive Construction and Electrical Goods Plant of the Federation of People-Owned Electrical Machine-Building Enterprises), Hennigsdorf, for its production and investment programs.

In both lists the requirements consist of various kinds of steel, with the quantity, the types of steel, the specifications, and the period of delivery indicated.
